

Jorge Diego Rios

Frontend Developer · React · TypeScript

Buenos Aires, Argentina +54 9 11 2577 0755 jorgedrios86@gmail.com LinkedIn GitHub Portfolio

PROFILE

Frontend Developer specialized in React and TypeScript. I build complete web interfaces from scratch — reusable components, state management, API integration, and Tailwind styling. I care about clean code, predictable UIs, and shipping things that actually work.

SKILLS

Frontend: React 19, Next.js, TypeScript, Tailwind CSS v4, Vite, React Router v7

State / Data: Zustand, TanStack Query, React Context **Testing:** Vitest, React Testing Library, Playwright

Tools: Git, Vercel, ESLint, pnpm, Figma

EXPERIENCE

Freelance Frontend Developer

2024 — Present

- Built complete React applications for small businesses, from components to production deployment.
- Feature-based frontend architecture with decoupled Zustand stores, shared types, and API layer.
- Interactive dashboards (Recharts), client-side PDF generation (jsPDF), complex forms (React Hook Form + Zod).
- Payment (Mercado Pago) and auth (Supabase OAuth) integration from the frontend.
- Component and E2E testing with Vitest, Testing Library, and Playwright.

PROJECTS

As Anas

[Next.js](#) · [TypeScript](#) · [Tailwind CSS](#) · [Vercel](#)

Multi-language business website developed in collaboration with the **Zima Blue** team for a Portuguese company. SSR with Next.js for optimal SEO, reusable React components, responsive design, deployed on Vercel.

[as-anas.pt](#) →

Multitécnicos

[React 19](#) · [TanStack Query v5](#) · [React Router v7](#) · [Tailwind CSS v4](#)

Public professional directory with headless CMS — **live in production**. Data fetching with caching and loading/error states, lazy-loaded routes, image carousel, frontend SEO (helmet + JSON-LD). Tested with MSW + Testing Library.

[multitecnicos.com.ar](#) →

ElectroGestor

[React 19](#) · [Zustand](#) · [Recharts](#) · [Supabase SDK](#) · [Tailwind CSS v4](#)

Full-featured multi-tenant frontend for business management. Independent modules with Zustand stores, revenue dashboard with Recharts, client-side PDF invoice generation, real-time form validation. Tested with Vitest + RTL.

La Brutal Hamburguesería / E-Commerce

[React 19](#) · [Medusa Store API](#) · [Mercado Pago](#) · [Playwright](#) · [Tailwind CSS v4](#)

React storefront for a Medusa v2 e-commerce platform. Live catalog from API, local cart state, checkout flow, and Mercado Pago payments. 16 E2E tests with Playwright. CI/CD with GitHub Actions.
